

## DEAR PARENTS,

the state of Lower Saxony, the elementary schools and the Capital City of Hanover are working together to create a high quality full-time school program for families in Hanover.

The educational mission of the elementary schools, whose main aspect is imparting knowledge, is complemented by individual educational possibilities for your child during the full-time program.

In addition to classes in the morning, the program of the full-time elementary schools in Hanover includes the possibility of early or late day-care, joint lunch, support with homework and various activities. These include sports themes, musical-cultural education themes and also, discovering one's own district with others. Your children can engage in computers or learn about healthy food, as well. They develop unknown abilities in circus groups and make exciting discoveries while experimenting and researching. All of this strengthens your child's confidence and is important to his or her successful schooldays.

Today, full-time elementary schools can be seen as essential institutions for families. Full-time learning promotes a future-oriented personal development as well as opening key competences within your child.

The full-time school program incorporates day-care for your children as well as extensive individual educational options.

The chances regarding participation and education for all children, regardless of their social origin, are supported by versatile educational offers during full-time. Therefore, full-time elementary schools contribute to equity of opportunity and education.

For many years now, the full-time school program steadily pleases families in Hanover.

Rita Maria Rzyski  
Director of Personnel, Education, Youth and Family of the State Capital Hannover

### MOVEMENT – RELAXATION – DISCOVERY / LEARNING
